

EDITORIAL

Recent developments in engineering are to accelerate technology reflects the emergence of innovative products. Each new product should be remembered that the environmental effects should not be ignored. Our journal has become a particular focus of study in this regard. Proud! This issue we have provided for the international flow of information by scientific studies. We invite scientists to contribute to our journal.

Prof. Adnan Sozen

(Associate Editor)

Department of Energy Systems Engineering,

Gazi University,

Ankara, Turkey.
